

Airborne ISR as a Service

Rapidly Deployable, Multi-Mission ISR

Metrea Special Aerospace Intelligence, Reconnaissance, and Surveillance

MSA/ISR delivers integrated Airborne Intelligence, Surveillance, and Reconnaissance (AISR) solutions to our defense partners - from design to integration, to sustainment and modification, to maintenance and logistics support, and collection and dissemination - in austere expeditionary environments.

Over 20 aircraft readily available in 7 models, including Challenger 604 & 605, King Air B350ME & B200, and Egrett.

Proprietary KA350 maximum endurance system provides 10+ hour endurance and 35% greater on-station coverage than stock 350ER

Multi-mission intelligence jet aircraft with RADINT, IMINT, SIGINT, and ELINT installed capability

98% mission completion rates, over 7,000 missions flown, with 130,000+ mishap-free flight hours

Secure and accredited aircraft hangars and classrooms located in Oklahoma City, OK and Tampa, FL

Highly experienced former military pilots, ISR sensor operators, and specialized maintenance teams
